

Slims

Thin, crunchy and packed with flavor! A cracker meets a cookie meets banana bread. Our team recently attended the Fancy Food Show and brought back several boxes for general sampling and munching. They did not last very long. With only 100 calories per pack, all-natural and preservative-free, you can't go wrong with these dessert-like crackers!

We could not decide on a favorite flavor because they were all wonderful in their own right. Try them out and you'll see what the craze is about!

About Trumps:

Trumps Wholesale dessert proprietors has created a new line of shelf stable dessert cracker called Slims. The product has evolved out of a need for all-natural, portion controlled, any-time snacks.

It's packaged in 100 calorie portion packs. The flavours are Banana, Omega (Cranberry & Orange) & Cacao. The product was just launched at the San Francisco specialty food show which was a hit! There is nothing like this product in the market place. We have created a whole new category in food. The product can be eaten on its own (when you're on the go) or enjoyed as a topping on fruit, ice cream, topped with cheese, used in a fondue, or as a base for an hors d'œuvre.
